## **DETAILED ACTION**

### ***Specification***

35 U.S.C. 112, first paragraph, requires the specification to be written in "full, clear, concise, and exact terms." The specification is replete with terms which are not clear, concise and exact. The specification should be revised carefully in order to comply with 35 U.S.C. 112, first paragraph. Examples of some unclear, inexact or verbose terms used in the specification are: the repeated description of an "unfoldable" device or part of a device that is subsequently unfolded; the description of an unfoldable device followed by the description of an "unfoldable part" of a device, suggesting that the entire device is not unfoldable, when the device is described as an unfoldable device.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Independent claims 1 and 9 both describe an "unfoldable" medical device that is then unfolded. The claims are self-contradictory and cannot be examined.
